

How to digitize the examination process of 3000 students in 3 weeks at IMC University of Applied Sciences Krems

Leverage the power of existing systems

Sparked by the COVID-19 crisis, IMC University Krems recognized the need for a rapid and comprehensive update of their online testing capabilities.

Leveraging their existing online campus system, IMC Krems partnered with the biz:Examiner team on an ambitious plan: to enable all of the 3000 students from over 50 countries to take digital exams from home.

biz:Examiner has been implemented at IMC FH Krems in a very short period of time, without any problems. **We are thrilled about the possibility to digitally administer all the upcoming written exams** and as a result closing in on our goal of enabling every student to study without losing a semester - even in these difficult times.

Prof.(FH) Mag. Dr. Martin Waiguny, Chair of the Academic Board IMC FH Krems

Securing competitiveness in difficult times

The results were amazing. IMC FH Krems, in partnership with biz:Examiner, manage a successful switch from paper based onsite exams to online home exams for a whole university in less than 3 weeks.

The approach included a fast-forward integration into IMC's existing online platform to match exams to courses automatically, single sign-on for back office users, as well as the support for manual marking and result processing and documentation.

About IMC University of Applied Sciences Krems

- www.fh-krems.ac.at
- IMC FH Krems is one of Austria's most innovative universities
- 3000 students from 50 countries subscribe to 30+ undergraduate and graduate programs

Goals

- Provide continuity of planned examination schedules through COVID-19 crisis
- Integration of biz:Examiner into existing online campus platform

Approach

- Leveraging biz:Examiner API to integrate with campus platform
- Create and deploy instructions and video tutorials to expedite staff's ability to drive content creation

Results

- Seamless continuity for 3000+ students across 50 countries in only 3 weeks (contract-to-exam)
- Frictionless experience for students and teaching staff
